For the past 14 years, I have held the post of Programme Lead for the Diploma of Higher Education in Operating Department Practice (Dip HE ODP). As well as being responsible for the running and development of the Dip HE ODP Programme, I deliver the Post Anaesthetic Care and Professional Issues modules. I also contribute to teaching on other Pre-Registration programmes (Midwifery) and have also participated in teaching with international partners. I have a keen interest in interprofessional teaching and learning, and I am interested in new forms of assessment, curriculum development and in exploring ways of using creative learning / teaching approaches within the Dip HE curricula.
